

LANDCRAB

OWNERS' CLUB INTERNATIONAL LTD

Thank you for your interest in our Club. It was formed in 1988, exactly 24 years after the first Austin 1800 was unveiled to the public. The Club caters for the Mk.I.; Mk.II and Mk.III Austin, Morris and Wolseley variants produced by BMC and BL between 1964 and 1975.

The first problem the Club faced was a suitable name; originally called the 'Austin-Morris 1800/2200 Owners' Club', this was considered too much of a mouthful, nor did it mention the Wolseley. Very few people know of the official factory coding of 'ADO17' (ADO = Austin Drawing Office) so that seemed inappropriate as well.

The Landcrab name comes from the 1960s when the cars were used a lot in International Rallies. A motoring journalist remarked that as the cars cornered sideways they looked just like 'Landcrabs'. The name has been used as a term of affection for these cars ever since. And so the name of the Club came about.

We offer the owner/enthusiast a friendly and informal service. Through the Club magazine 'Landcrab News' we hope to offer technical tips, articles on the cars' history, news of events, etc.

One of the Club aims is to locate sources of spares to keep all examples of these cars on the road — to this end we operate a comprehensive and efficient spare parts service.

The Club exhibits cars at shows up and down the country and organises its own events and social calendar. There are several local groups meeting around the UK.

The Club has a truly international membership with members as far afield as Australasia, North America, South Africa and most of Europe. This widespread membership reflects the growing interest in these popular cars.

Do join our Club and help to contribute to its future and to the future of one of Issigonis' best designs — the Landcrab!

The Club is affiliated to the following organisations:

Federation of British Historic Vehicle Clubs
